Certified ScrumMaster®

Certified ScrumMaster Course Overview

Starting with the Certified ScrumMaster® (CSM®) certification from Scrum Alliance® is a **great starting point** that allows you to pursue the guided journey through Advanced and Professional level credentials and on to guide level status as a coach and/or educator.

This course will illustrate how Scrum and agile product management practices are applied by Scrum teams to validate ideas, evolving requirements, and deliver potentially shippable products in frequent, time-boxed iterations

The variety of approaches that will be used in this course will include:

1. Facilitated interactive scenarios and case study discussions by top Agilists who have transformed a number of organisations
2. Experiential learning through mini-project simulations, role plays, quizzes and games, where the concepts of user stories, agile estimation, and release planning are practised
3. Hands-on exercises, students can use the created solutions at their workplace

Certified ScrumMaster Course Outcomes

On completion of the course, the students would be able to:

- Expand career opportunities across all industry sectors adopting Agile practices
- Understand Appreciate why and how Agile fits perfectly into Volatile, Uncertain, Complex and Ambiguous(VUCA) environment
- Understand the principles underlying agile methodologies and how to apply them in a team context
- Discover how documentation, governance and reporting differ between a traditional and an agile way of working
- Understand and Appreciate the ScrumMaster role as Facilitator, Change Agent and a Transformation catalyst
- Practice Scrum Master services offered to Product Owner, Development Team and to Organisation, understand the challenges and best practices along the way
- Practice Application Of Scrum Theory And Practice via A Goal Orientated Simulated Project

Post Course Advisory Service

At the end of the course, you can request for a free advisory service on either career or organisation improvements. The duration of the advisory service will be conducted by the Course Manager and will be capped at 1 hour for an individual and 3 hours for an organisation, with a validity period 3 months from the course completion date.

Benefits of a ScrumMaster Certification

Expand your career opportunities across all industry sectors adopting Agile practices

Demonstrate your attainment of core Scrum knowledge

Learn the foundation of Scrum ad the scope of the role

Engage with Scrum practitioners committed to continuous improvement

In addition to fulfilling the role of ScrumMaster, your CSM certification gives you a two-year membership with Scrum Alliance®. Join local user groups and online social networks, gain access to deep discounts on Gatherings, and more.

The demand for CSM professionals continues to increase and Fortune 500 companies are continually hiring CSM professionals.

Key Takeaways of Certified ScrumMaster Course

Focus on implementation – The CSM® programme is designed to build on your foundational knowledge with enhanced skills for the implementation of Scrum and Agile techniques within your company and teams.
